

Prime Creator

Christ / the androgynous man

the tantric couple

the reunification

your own way

etc.

You want to use a symbol or unlock one?

A symbol gives you the opportunity to add more complex relationships in a simple way as a sign. Above some icons are shown. Create your own, invent new ones - and never forget that the symbol word can also contain a meaning.

You come to the meaningful interpretation text,

by noting the found term respectively the found word vertically so that there remains some space on the left side for the basic meanings of the individual letters. Then you ask to whom or to what the message relates to, and then try intuitively to formulate a text that contains all the basic meanings and additions in turn. You will receive a text - perhaps a bit cryptic - but it will make sense to you personally.
